OUR STORY

Enrico Parodi, the son of an Italian father and a Portuguese mother, combined his passion for fashion and beauty with the business opportunities present in the industry in Portugal.

In 1990, he founded RickiParodi S.A. in Porto, Portugal.

With its strategic location as the gateway to Europe and excellent logistical conditions, our company has experienced controlled and consistent growth. We have established fundamental and strong partnerships that have contributed to our success.

Today, we are proud to offer a comprehensive range of professional beauty products that are dedicated to the beauty industry. We are confident that these products will be of great commercial and economic interest to you.

MISSION, VISION & VALUES

MISSION

To deliver the finest beauty solutions to beauty professionals, offering an exceptional balance of quality and affordability. We strive to achieve excellence in results by providing products that exceed expectations and ensure utmost satisfaction.

VISION

Establish itself as a renowned and respected authority in the beauty market, not only as a trusted brand but also as a provider of exceptional services to consumers and partners alike. Our ultimate goal is to position the RickiParodi brand as a global benchmark in the beauty and cosmetics sector, setting new standards of excellence and inspiring industry-wide recognition.

MYTHICAL collection

All fantasy tones and glitter are part of this collection. These colors transmit magic and mystery while emanating elegance and fun.

AIR collection

Associated with wind and breath, air is considered a means of spiritual elevation, representing a subtle world between heaven and earth. This element is considered "active and masculine", as well as the element fire, as opposed to earth and water, "passive and feminine". In this collection we find smooth, crystalline and pure colors that perfectly represent the element of air.

EARTH collection

The Earth element symbolizes substance, stability, and solidity. The colors in this collection enhance the connection to nature.

MOISTURIZING LAVENDER CUTICLE OIL
FOR HANDS AND FEET
ref. 45.400.795 • vol. 15ml

The RickiParodi Lavender Cuticle Oil is a natural product that offers multiple benefits for nail and cuticle care. Rich in moisturizing and soothing properties, it helps soften the cuticles, preventing them from becoming dry. Regular use of this oil promotes nail strengthening, making them more resistant and giving them a healthy appearance. Additionally, it prevents lifting of products at the free edge of the nails. If not applied during a manicure service and the cuticles are dry, products applied to the nails may lift. The relaxing lavender fragrance provides a pleasant sensory experience.

formula

The 10-in-1 Nail Treatment Polish is a versatile and comprehensive product designed to offer multiple benefits in a single application. It strengthens and protects the nails, preventing breakage and peeling, while improving resistance and flexibility. It promotes hydration, nourishment, and regeneration of the nail structure, making them healthier and with a natural shine. Its formula combats yellowing and smooths imperfections, making it ideal for those seeking an effective and practical treatment to keep nails strong, healthy, and well-maintained.

VITAMIN COMPLEX AND PLANT EXTRACTS

Double, patented complex of five vitamins (A, B5, C, E, derivatives F) and five plant extracts (Aloe, Lemon, Ginseng, Pomegranate and Grape) ensures hydration, strengthening, nutrition and revitalization of nails.

Reduces the fragility and division of the nail plate, increases the brightness and improves the general condition of the nail in just a few weeks of use.

NAIL FILES

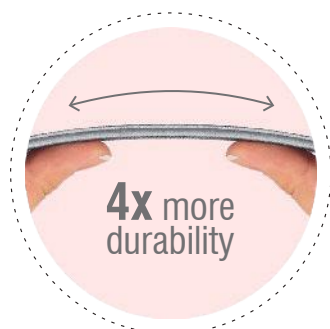

RickiParodi American nail files are great for manicures and pedicures.

The multipurpose grit is great for both artificial and natural nails. Extra durability. Guaranteed to last 4 times longer than regular files and speed up the process up to twice as fast. Works great on gel and acrylic nails for a smooth finish.

Padded files provide better grip and ease of use, as well as allowing more control and faster nail refinement.

THERMAL BLANKET: BENEFITS AND APPLICATIONS IN BODY TREATMENTS

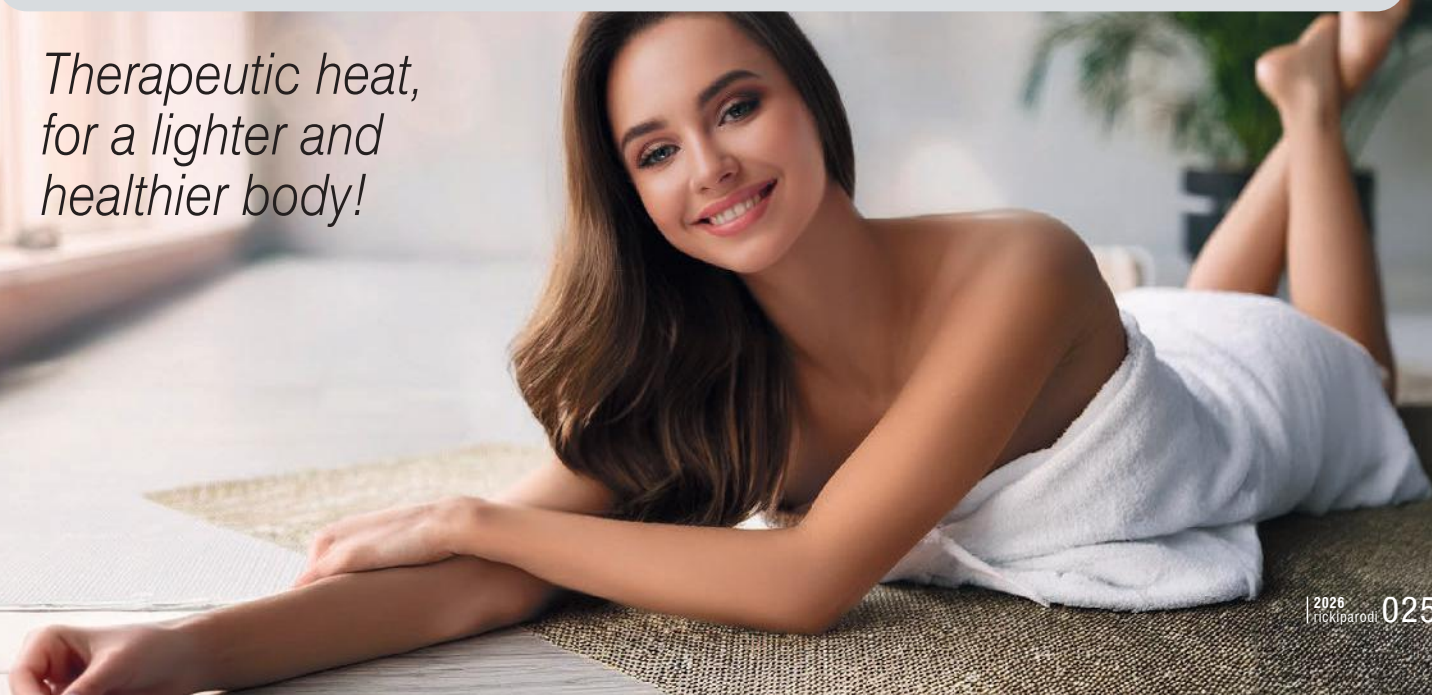

The **thermal blanket for body treatments** is a device used in aesthetic and health therapies to promote physical well-being and assist in treatments for weight loss, muscle relaxation, and improved blood circulation. This equipment works by emitting controlled heat that gradually and evenly warms the body.

The heat generated by the thermal blanket causes the blood vessels to dilate, **improving circulation** and aiding in the **elimination of toxins**. Additionally, the increased body temperature induces sweating, which can help **reduce water retention** and assist in **size reduction**. This treatment is often combined with slimming creams or specific products to enhance their effects.

Another benefit of the thermal blanket is its ability to **relieve muscle tension**. The heat relaxes muscles and joints, making it particularly helpful for back pain, lower back pain, or discomfort associated with stress and physical fatigue. The general sense of **well-being and deep relaxation** it provides is one of the main reasons it is widely used in aesthetic clinics and spas.

Precautions should be taken when using this device, especially for individuals with heart problems, pregnant women, or those with extreme sensitivity to heat. It is always recommended to follow the guidance of a qualified professional to ensure safe and effective treatment.

for a lighter and
healthier body!*

€560,00
20 x 6pcs

- **Functions:** galvanic, high frequency, vacuum, brush, ultrasound, spray, spot removal
- **Accessories included:** see accessories at bottom of page

7 FUNCTIONS

- **High frequency electrotherapy:** It is a good anti-acne treatment assistant. The high-frequency current infiltrates the deep layer of the skin, generating heat, and accelerates blood circulation, helps absorb nutrition and expel waste. Heat can relax tense nerves, help the solvent seep into the skin, and regulate sebum production.
- **Galvanic:** this process helps to absorb the active ingredients present in cosmetics while expelling impurities from the skin. The positive electrode is essentially used to reduce inflammation, activate the active ingredients of cosmetics and accelerate their absorption after cosmetic treatment. The negative electrode is intended for the treatment of aging or oily skin.
- **Ultrasound:** due to high frequency vibration, it produces a gentle micro-massage to the skin cells, accelerates blood circulation, facilitates metabolism, activates cells and improves nutrition absorption. Ultrasound frequency can also generate resonance vibration of cells, consume fats and improve cells ability to absorb water, rejuvenating and improving skin elasticity.
- **Vacuum & Spray:** Glass tubes apply to remove acne, pustules, remove dirt so as to keep skin clean and fresh. The sprayer converts the toning, anti-inflammatory lotion into steam and pulverizes it.
- **Blemish Removal:** Through high-frequency electric current coagulation, it stimulates epidermis cell necrosis, which can completely eliminate all kinds of blemishes on the face or any other skin surface. The effect is obvious without bleeding or scarring.
- **Brushing:** Allows a micro massage of the skin, eliminates aging cells, expels toxins and reduces wrinkles. Combined with cosmetic products it can enhance its effect. With the power of the rotating brush, it provides an excellent massage to the skin. Cleans and exfoliates aged cuticles. After cleaning impurities and dead cuticles, the skin becomes healthier and toned, due to the acceleration of blood circulation and removal of fatigue.

BLACK WAX

Innovative wax that allows a quick and delicate depilation. Based on charcoal, it provides purifying and astringent characteristics. Flexible and elastic wax for less painful hair removal, even in the most sensitive areas.

ELASTIC DEPILATORY BLACK WAX
low melting point
ref. 70.080.005 • vol. 800gr

€10,26

10 x 12pcs

BENEFITS OF BLACK WAX

The black, elastic low-melting depilatory wax provides effective and gentle hair removal, ideal for sensitive skin. Melting at low temperatures, it reduces the risk of burns and offers comfort. Its elasticity allows for precise removal of short and coarse hairs, without the need for strips, making the process less painful. In addition, it has soothing properties as it contains activated charcoal, leaving the skin smooth and irritation-free for longer.

LIPOSOLUBLE HAIR REMOVAL WAX

They stand out for their natural composition, ease of removal with oils, and being less irritating, as they adhere more to the hair than to the skin. Additionally, they hydrate the skin, are suitable for all skin types, including sensitive skin, and ensure long-lasting results, leaving the skin smooth for weeks.

BENEFITS OF ALOE VERA

Treats sunburns: Due to its nutritional qualities and antioxidant properties, the skin heals more quickly.

Acts as a moisturizer: Hydrates the skin without leaving an oily feeling. It can also treat small cuts caused by shaving.

Treats acne: Allows the skin to heal quickly and naturally with minimal scarring.

Fights aging: Contains a variety of antioxidants, including beta-carotene, vitamins C and E.

Reduces the visibility of stretch marks: Restores the skin's elasticity.

Stimulates hair growth: Works on the scalp's microcirculation, stimulating hair growth and making it stronger and more voluminous.

Natural makeup remover: An economical, eco-friendly, and natural idea. Apply aloe vera gel to a cotton pad and cleanse your skin: aloe vera helps hydrate the face and tighten tissues.

ROYAL SECRET LEAVE-IN
10 BENEFITS IN ONE PRODUCT, FOR ALL HAIR TYPES

- 1. Repairs and Hydrates:** Treats dehydrated and damaged strands with active ingredients that restore texture and flexibility to the hair.
- 2. Frizz Control:** Protects against temperature and humidity variations, preventing frizz and maintaining the smoothness of the strands.
- 3. Heat Protection:** Creates a protective film that shields hair from the heat of blow dryers and styling tools.
- 4. Smoothing Action:** Deeply conditions, ensuring soft and controlled hair.
- 5. Sun and Color Protection:** UVA and UVB filters prevent oxidation caused by the sun, preserving color and shine without weighing the hair down.
- 6. Friction Reduction:** Provides smoothness, making it easier to use flat irons and preventing hair breakage.
- 7. Detangling:** Leaves hair loose and easy to comb through.
- 8. Hairstyle Hold:** Helps maintain the style for longer.
- 9. Split End Prevention:** Reduces the appearance of split ends.
- 10. Volume Control:** Ensures a sleek look without excess volume.

ACTIVE INGREDIENTS:

HAIR MOUSSE - STRENGTH 4
ref. 45.100.281 • vol. 300ml

€6,50

10 x 12pcs

The structuring mousse for styling allows you to seal the hair, add volume, or define curls. It is preferably applied to damp hair. For curly or frizzy hair, apply a smaller amount of product to avoid weighing the hair down.

ACTIVE INGREDIENTS:

Argan Oil, Keratin

HAIRSPRAY - STRENGTH 5
ref. 45.100.280 • vol. 500ml

€5,95

10 x 12pcs

Hairspray is essential for fixing a movement or the entirety of a flawless hairstyle for a long time. Very fine and light hairspray. Thanks to its directed diffuser, it can be used for localized fixation with a close spray or more diffused for fixing the entire hairstyle.

With an extra **strong hold** index, it ensures long-lasting fixed hairstyles. It can be removed by brushing the hair, without leaving residue, and without making the hair heavy or greasy after application.

30 x 100pcs

- Double layer black/gold
- Satin

Friction Reduction: Satin is a smooth and slippery material, which helps to minimize friction between the hair and the cap. This reduced friction prevents breakage, split ends, and frizz.

Preservation of Hairstyles: For individuals with curly or styled hair, satin caps help maintain hairstyles for a longer time.

Moisture Retention: Satin does not absorb moisture from the hair as much as other materials. This helps to retain the hair's natural oils and prevent excessive drying.

Gentle on Hair: The soft and smooth nature of satin ensures that the hair strands are not pulled or tugged during sleep. This gentleness is crucial for preventing damage to delicate hair, such as curly or textured hair.

Reduction of Frizz: Friction and rough materials can contribute to frizz, especially in curly hair. By using a satin cap, individuals can reduce frizz and maintain a smoother, sleeker appearance.

DISPOSABLE CELLULOSE TOWELS

Disposable cellulose towels make it easier to maintain the highest level of hygiene in hair salons and beauty centers. Their dust-free formula ensures they are gentle on the skin, reducing the risk of irritation. Result: A higher standard of workplace hygiene and enhanced client comfort.

COMFORTABLE These disposable cellulose towels feature a soft touch, are super durable, and highly absorbent. They are specially designed for professionals, with ideal dimensions for performing tasks efficiently.

SAVES TIME AND MONEY Disposable cellulose towels are the most economical choice, helping to save on washing, drying, electricity, water, and hygiene-related costs. Our towels are highly absorbent, hypoallergenic, and leave no residue behind.

HIGHLY PRACTICAL

Designed for single use, these towels can be used to dry hair or skin effortlessly.

DISPOSABLE VISCOSE AND POLYESTER TOWELS

Viscose is an excellent material for creating highly breathable fabrics that absorb water while releasing body heat. It also appears to inhibit microbial growth, making it less prone to odors.

ECONOMICAL Perfect for spas, beauty salons, barbershops, and luxury retreats, these hypoallergenic disposable towels eliminate the need for washing, saving both time and money.

SAFE FOR HAIR AND SKIN

Made from natural fibers, these towels are safer, more hygienic, and help reduce the risk of cross-contamination.

SAVE CLIENT TIME

Being disposable, these towels allow your team to focus more on client needs, freeing them from the hassle of laundering.

FASTER DRYING

Grab your hairdryer and get ready to dry, curl, and style in less time. Our professional THERMAL hairbrush features a ceramic barrel with hollow, slightly concave cores that lift hair from the scalp. This allows the hot airflow from your hairdryer to be directed straight to the root area. **The result? Impressive volume in less time. Add extra hold by preheating the ceramic barrel of the thermal brush with your hairdryer.**

IT IS RECOMMENDED TO MAINTAIN A DISTANCE OF AT LEAST 1 CM BETWEEN THE DRYER AND THE BRUSH.

NATURAL WOOD

SUITABLE FOR ALL HAIR TYPES

These hairbrushes with natural boar bristles are the perfect choice for all hair types: straight, curly, or wavy; thick or fine. They are an excellent option for thicker, natural, and treated hair and are safe for extensions and wigs.

HAIRBRUSH FOR CREATING VOLUME

Its round shape is designed for styling, increasing root elasticity, adding volume, and curling when used with a hairdryer. The natural boar bristles are the best way to lift and add root volume without the need for chemical products.

100% NATURAL BOAR BRISTLES

The scalp naturally produces an oil called sebum, which acts as a protector for the hair. Boar bristles help distribute this sebum to lubricate each strand, reducing frizz. They do not damage the hair or create static electricity.

NYLON BRISTLES AND NATURAL WOOD STRUCTURE

In addition to boar bristles, nylon bristles are included to assist in drying, straightening, curling, and styling while preventing tangling. These nylon bristles are heat-resistant. The polished ergonomic handle is made of strong and durable natural wood. Designed for comfortable control during drying. The tips of the boar bristles provide a massaging sensation on the scalp, which also helps improve blood flow.

SPLIT-X

SAY GOODBYE TO SPLIT ENDS AND FRIZZY HAIR!

If you've been facing the problem of split ends, we present the ideal technical solution: the SPLIT-X. This device has been specifically designed to precisely remove excess split ends and frizzy hair, while preserving the natural length of the hair. With a single investment and periodic maintenance, you can save time on trips and waiting at the salon, as well as reduce associated costs.

The SPLIT-X from RickiParodi is an advanced trimmer that captures only the damaged ends during the cutting process, without compromising the healthy length of the hair. Its technology allows you to eliminate split ends and control frizzy hair that could evolve into more extensive damage. It is not a hair straightener or a traditional hair clipper, but rather a specialized tool that ensures a uniform finish, keeping the hair looking healthy without compromising the hair structure.

Why get rid of the length of your hair when you can just get rid of the split ends?

ULTRA SLIM PRO the self-regulating heating element

The vitrified titanium plates use a ceramic heating element that self-regulates. This technology ensures that the temperature remains stable, resulting in greater safety and hair health. The titanium finish promotes superior thermal conductivity. Its function is to maintain a constant temperature through instant heat replenishment. 230°C provides the best result for straightening, without damaging the hair strands. Ergonomic, ultra-thin (slim) design to eliminate hand fatigue after long periods of use.

HAIR RESTORATION

Specially developed to restore extremely damaged hair. Hair exposure to external agents (sun, sea, chlorine, heat, pollution), chemical treatments (straightening, dyeing, bleaching), or Progressive Brushing (formaldehyde) weakens the hair fiber, causing breakage. The action of the reconstructive complex strengthens, nourishes, and deeply hydrates the hair, leaving it more resistant and flexible. It replenishes lost keratin in everyday life, favoring the rapid repair of damaged hair fibers.

AVOCADO & HONEY

Avocado is rich in vitamins (A, B, D, and E), fatty acids, and antioxidants that help deeply nourish the hair, restore softness, and combat dryness. Its emollient action also strengthens the hair, reducing breakage and split ends. Honey is an excellent natural moisturizer that helps retain hydration in the hair and contains antioxidants that contribute to a healthy scalp and shinier hair.
